

TCFSC FALL 2020 RULES & INFORMATION

Learn to Skate

All areas and surfaces within the rinks and lobbies have been sanitized and coated with an antimicrobial spray. This sanitization includes, but is not limited to, the front lobby, rental skates, floors, doors, bleachers, rink glass and boards, benches and penalty boxes, locker rooms, shower's and restrooms.

The staff will be sanitizing high traffic areas and surfaces. For example, the staff will regularly clean the rink board caps, door handles, music center, and vending machines.

Many areas of the facility will have limited or no access, please stay within designated areas.

Masks are required for all employees, skaters, and guests in the building. **Patrons without a protective face covering will not be permitted in the building.**

Maintain Social distancing - **Only one skater, and one parent or guardian, if required for a skater under the age of 18, will be allowed in the downstairs lobby area.** Individual chairs will be marked for each skater in the arena area along the outside of the boards and locker rooms. Only one other family member may watch in the stands. The other member will need to straight upstairs (through the doors on the left or right upon entry to the building) and into the stands from upstairs. A minimum of 6 feet of distance is required. The building has a limited capacity. **Skaters are encouraged to enter the building with skates on and ready to go if possible.** Rental skates will be available. WAIT in your chair until your instructor leads your skater to enter the ice. DO NOT line up at the ice door.

Our instructors will remain as "hands off" as possible but in the event that they do have physical contact, safety protocols will be implemented.

Upon entering the building, skaters and chaperones must have their temperature taken by a staff member. Waivers will need to have been turned in via email prior to participation. LTS waivers need only be completed one time. You will be asked your name upon each entry to the rink to ascertain that a waiver is on file. Do not come to the rink if you or your skater exhibit any signs (fever, cough, shortness of breath/difficulty breathing, chills, repeated shaking/chills, muscle pain, headache, sore throat, new loss of taste or smell). It will not do you or anyone else in the community any good if the virus is easily introduced into the building. It could lead to you and everyone else not being able to skate. Stay home if you have reason to believe you may be infected (tested positive, having any symptoms, exposure to someone who is infected).

Hand sanitation stations will be available in the lobby and at the entrance to the ice. Everyone is encouraged to wash their hands frequently with soap and water.

Most doors will be propped open to minimize touch points (potential contact sites). Follow the designated traffic flow pattern.

The drinking fountains are closed. If necessary, please bring a personal, filled water bottle labeled with your name. The Club office cannot fill water bottles. Water will also be available in the lobby vending machines if necessary.

Take temperatures prior to driving to the rink. If your skater's temperature is 100.4 Degrees or higher, you cannot skate.

We reserve the right to send your skater off the ice if they are not following the safety precautions.

Skaters will enter the building through the main entry. All persons will exit the building via the side door of the arena. Entry and Exit areas are clearly marked.

You should be prepared to come in the building no earlier than 20 minutes before class.

There will be no make up classes available under any circumstances. Due to the limited skaters allowed on the ice, we will unfortunately not be able to accommodate make up classes until further notice.

Helmets will no longer be available from Centre Ice. You must provide your own helmet. A helmet is required for all our beginner skaters in the Snowplow Levels and Basic 1. Helmets are recommended for all other levels.

Skaters should bring their own gloves or mittens. We will no longer have gloves available to borrow. For the safety and health of your skater, we strongly recommend gloves be worn at all times in the building and taken home to be washed following class.

Parents are expected to report any illness if their skater becomes symptomatic after spending time at Centre Ice, by emailing jpalamara@yahoo.com. Names will not be used when reporting a possible exposure at the Centre Ice.

Procedures and rules may be updated at any time in order to adhere to local, state, and federal safety guidelines.
